

He Does Not Slumber
Words and Music by Michael Kendall

Suffering, suffering
Obtained through your decrees
In my faithfulness, you've afflicted me

We are tired, we are weak
Our spirits fear defeat
There's evil pressing in on every side

How long will we suffer?
How long will we wait?
He watching over us, is he awake?

Abba! There's nothing you can't do
Father! Help us suffer like you
You wear Justice and Peace
We know You will speak,
"He does not slumber nor sleep"

Rescue me, rescue me
I cannot rest in thee
Please don't let my sin run away with me

Not the sword, not the bow
Will defeat this foe
Turn your steps toward my ruined soul

How long will we suffer?
How long will we wait?
He watching over us, is he awake?

Abba! There's nothing you can't do
Father! Help us suffer like you
You wear Justice and Peace
We know You will speak,
"He does not slumber nor sleep"
